

Acoustic Ceiling Baffles - Installation Guide

Using Suspension Wires

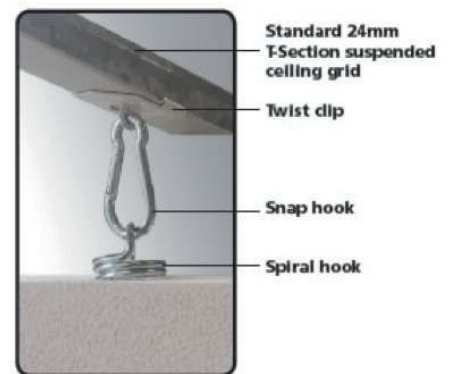

Clean white gloves must be used when handling the baffles. Install the first baffle and check that the installation is satisfactory before proceeding with the rest of the installation.

Installation Detail with Suspension Wire Kit

T-Section Suspended Ceiling Grid

Install the first baffle and check that the installation is satisfactory before proceeding with the rest of the installation. Acoustic Ceiling Baffle can be installed from a standard 24mm T-Section suspended ceiling grid (supplied by others).
